bluespot special features

Our ergonomically designed furniture and systems include special features to enhance aesthetics and practicality. This attention to detail provides a comfortable, user-friendly environment for our customers. From soft close drawers to various cable management options, the Bluespot special features provide the customer with a flexible furniture range to suit the demands of today's office.

on the surface our range of desk systems are simple, stylish and flexible.

underneath lies strength, durability, practicality and quality that is second to none.

Look for these icons throughout our brochure.

cable port

Our cable ports are both practical and pleasing to the eye.

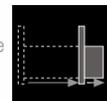

Available on X5 Bench Only

soft close drawer

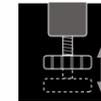

optional extra on selected pedestals

With a soft close action and solid construction this drawer is highly durable and able to withstand over 60,000 cycles whilst holding over 40kgs.

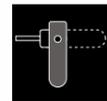

adjustable feet

All Bluespot desking, pedestals and meeting tables are complete with adjustable feet to help account for any uneven surfaces.

hinged key

All lockable units are provided with hinged keys to prevent them from breaking on accidental impact.

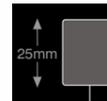

modesty cut-out

Our modesty cut-outs allow you that extra breathing space and flexibility for additional cables.

robust design

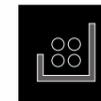

All our desk tops are produced in 25mm MFC with 2mm edging for added durability.

cable management

X5 beam system

With the new cable management beam system (X5 Bench & Cantilever) you are assured to have the best cable free desking that money can buy.

cable management

M3 in-leg system

Create a tidy workspace with the in-leg cable management system.

All products are manufactured using wood from well managed forests, independently certified with the rules of The Forest Stewardship Council.

All products hold a manufacturer's warranty of 5 years. This guarantee covers all defects in materials & workmanship.

These products have been tested and approved. Details on request

X5 BENCH

The clean lines and contemporary look of our Bench System is complimented by the ability to offer a free flowing flexible workspace, allowing multiple users to work individually or as a team. The range has been design engineered to allow the sharing of leg components to maximise the use of your office space and to equally minimise the financial costs.

X5 CANTILEVER

X5 Beam System. The X5 beam leg system incorporates strength and stability whilst still keeping an elegant and contemporary feel to your office workspace. With integrated cable management (beam), the X5 is a professional's 'must have' and is our benchmark leg system. The X5 leg system is manufactured to the highest quality with much time spent in research and development to make this leg the top of its game.
