DILE  **OFFICE**®

acer

Pure balance between features and avant-garde design. A combination of first class materials provide perfectly arranged elements for functional ergonomics in the executive office. Resistant, comfortable and hardwearing.

ACER, maximum freedom of movement in seating architecture.

acer

ACER is design, a chair with a low visual impact with high quality finishing. It also combines twin colour acrylic mesh or natural leather.

Chrome plated steel structure backrest

Latex cover with ultra-resistant full-grain leather or acrylic mesh

Chrome plated double steel tube structure

Brushed aluminium armrest

Steel support structure within seat

Advanced 5 position adjustable mechanism
Gas filled automatic elevation mechanism

Pressure regulator, for better freedom of movements

Brushed aluminium base and high-profile rubber wheels

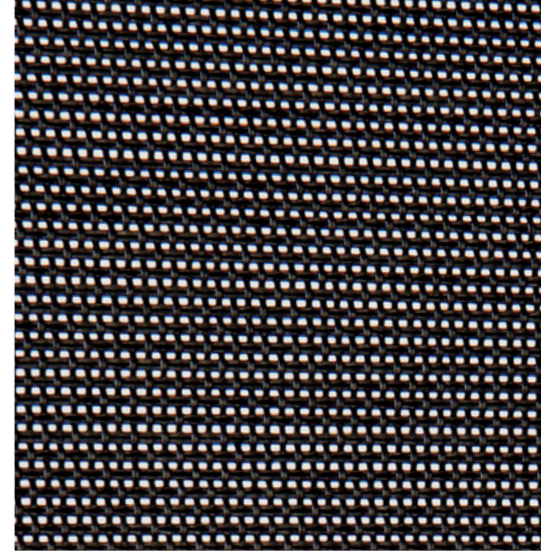

A collection which fits into contemporary settings. With the choice of high, low, confident chairs or bench styles to harmonise the entire space, the overriding presence is of steel.

Ultra-resistant acrylic-based mesh which is breathable, easily washed, adaptable, ergonomic and very comfortable.

This upholstery uses traditional, craftsmen's methods developed by DileOffice, which guarantee maximum comfort thanks to the latex filling and external full-grain leather cover.

Attention to detail, special rubber wheels to protect your working environment and less noise.

Freedom of movement, 5 position adjustable mechanism with the possibility of choosing one fixed position. Furthermore, the adjuster allows different mechanism positions when released in order to fully adapt to the user's preferences.
