

neo

# Neo

Minimalist in its conception. Sleek lines provide its shape. Completely free from noise.

NEO is the combination of state-of-the-art movement technology and the latest generation materials used for seating surfaces. Go on. Take a seat.

neo

A highly functional chair, including a collection of high, low and confident chairs, making up a family to enhance the creation of operational or executive zones.

Internal steel structure

Adjustable-height arms

5 position *syncro* mechanism

A carefully designed nylon base with high profile rubber wheels

The NEO series Executive collection in full-grain leather is, above all, a sober, serene choice. High, low and confident chairs.

Internal steel structure

Chrome plated, steel armrest

Auto-weight mechanism  
(pressure regulated in function of the user's weight)

Brushed aluminium base and  
high-profile rubber wheels

Upholstery system using high-density polyurethane foam inside and a high level of comfort for those long working days.

Attention to detail. Chrome-plated steel arms, covered in leather and contrasting twine.

Adjustable-height nylon armrest with attachment mechanism.

Auto-weight mechanism. Freedom of movement with a system which automatically regulates the pressure of angular movement depending on the user's body weight.

5 position adjustable *syncro* mechanism with the possibility of choosing one fixed position. The adjuster allows different mechanism positions when released in order to fully adapt to the user's preferences.
