

HARMONY

HARMONY

Harmony

Bringing together sleek, modern looks and a durable working chair, Harmony creates the right impression for any forward thinking office environment.

Comfort at work is essential to maintain constant productivity. Harmony has been designed to cater for a complex range of possible working positions.

To resist heat build-up in the back area, Harmony features a breathable nylon mesh that provides improved air circulation and is also a lot more flexible when creating the ideal working position.

An adjustable lumbar support on all models within the Harmony range enables the user to create the perfect posture support with absolute accuracy.

Standard Features

Synchronised mechanism with:
Multi position lock and anti-kick brake
Variable tension adjustment
Height and width adjustable armrests
Adjustable lumbar support
Chrome base
